# Welcome to the annual Green Door Art Trail 10 days from 16th to 25th September 2011

There is something rather special about buying art or craft direct from the person who created it. And what better way to explore this wonderful area than with this in mind - on the Green Door Art Trail.

Nearly 50 Green Door artists are opening their studios to the public and offering you the chance to take a peek at where they work, to purchase original works of art, prints and cards, and meet fellow enthusiasts en route.

Using our brochure map you can follow a series of routes radiating from Kendal in the heart of South Lakeland to Ambleside, Ulverston, Arnside, Dent and other areas of outstanding beauty. You will meet painters, sculptors, printmakers, ceramic artists, textile artists, jewellers and glassmakers - all able to tell you about their work and answer any questions you may have.

The beauty of the Green Door Art Trail is that you now have 10 days to visit, just check the highlighted dates alongside each artist's entry.

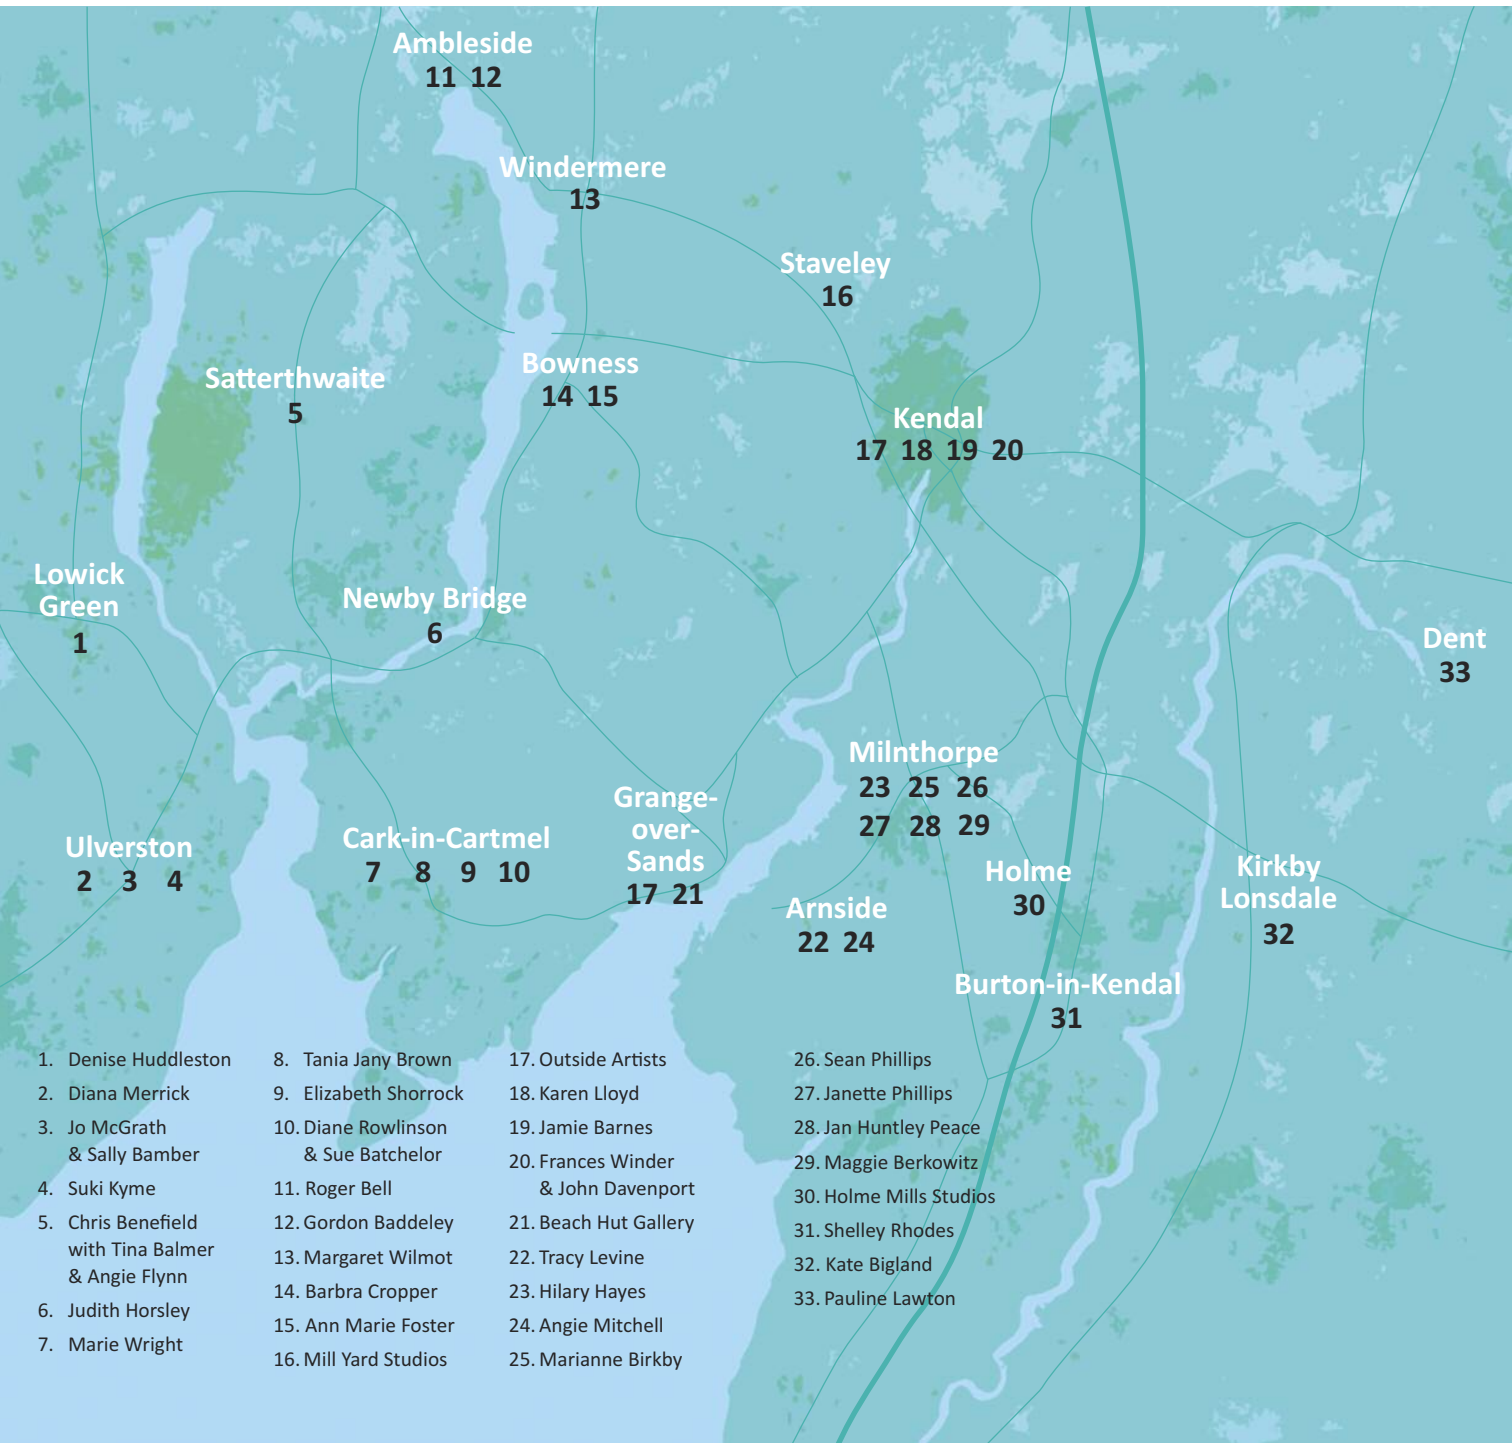

Green Door is an artists' co-operative, formed in 1995 to provide low-cost studios for artists in the area. For 15 years, 'Green Door Studios' was based at 12 Highgate, Kendal, and during this time, many artists passed through and got involved in a huge number of exhibitions, educational and community projects. Since the fire, which destroyed the studios in February 2010, the Art Trail has been our main activity each year, but we also run exhibitions and social events. We may, if a suitable property becomes available, be able to relocate to a new studio base - if you know of anywhere, do please get in touch.

And why not join us? We're always keen to welcome new members, whether you're an artist or someone keen to support local artists; so visit [www.greendoorstudios.co.uk/membership](http://www.greendoorstudios.co.uk/membership) and join today. By getting involved, you will be contributing to the cultural health of the area - and one of the reasons why so many people enjoy visiting and living here.
